

EHA Career Development Program:

2014 EHA Research Fellowships

An important goal of the European Hematology Association (EHA) is to promote the career development of basic, clinical and experimental hematologists. Researchers in the fields of malignant and non-malignant hematological diseases, who are interested in a fellowship, may submit their project proposal for the annual EHA Fellowships Program. The grant funds of the fellowships have been increased in order to better meet the needs of talented young hematologists. The program is now open for submission and the deadline for sending your project proposal is **August 1, 2014**.

2014 EHA-ISTH Fellowship

Intended to support the study of physiology of coagulation, bleeding or thrombosis. The EHA-ISTH Joint Fellowship is a collaborative program between EHA and the International Society of Thrombosis and Haemostasis and is open for applicants located within and outside of Europe. Mobility will be positively considered in the selection of the winner. Deadline for sending your project proposal is **August 1, 2014**.

2015 EHA-ASH Translational Research Training in Hematology Award

Translational Research Training in Hematology (TRTH) provides junior researchers with a unique, year-long training and mentoring experience. The program is a joint effort of the European Hematology Association (EHA) and the American Society of Hematology (ASH) and is focused on helping early-career hematological scientists build successful careers in hematologic translational research. Deadline for sending your application is **August 1, 2014**.
