

## BEIGENEIUS WEBINAR SERIES

Dear colleague,

The BeiGeneius Steering Committee is delighted to invite you to attend the fifth webinar in the BeiGeneius educational series, which will take place on Thursday, July 29, 2021, from 17:00 to 18:30 (CEST). In these challenging times, we are looking to new and exciting ways to continue sharing our knowledge and experience with our colleagues around the world.

The webinars will cover a wide range of topics within the field of hematologic malignancies to enhance your understanding of the fundamentals of patient management and will offer guidance that you can apply directly to your clinical practice. Each webinar will be interactive, with opportunities to ask questions of the speaker panel.

In the first four webinars, we covered diagnosis, first-line treatment, and relapsed and refractory treatment, as well as new and future treatments for Waldenström's macroglobulinemia. We use a diverse format, including interactive case studies, panel discussions and debates, and lively audience Q&A sessions. If you were unable to attend these meetings, please visit <https://beigeneius.eu> and click on the webcasts button to view the footage. In the fifth webinar, we will focus on the key challenges in managing B-cell malignancies during the COVID-19 pandemic, including new evidence-based insights and recommendations for treating aggressive and indolent lymphomas and managing COVID-19 vaccinations.

We are excited to be involved in the creation of a vital educational resource for a broad range of practitioners in the field of hematologic malignancies, and we hope you will seize the opportunity to join us for the fifth BeiGeneius webinar.

Yours faithfully,

Christian Buske  
University Hospital Ulm,  
Germany

Meletios A. Dimopoulos  
National and Kapodistrian  
University of Athens  
School of Medicine, Greece

Ramón García-Sanz  
University Hospital of  
Salamanca, Spain

Wojciech Jurczak  
Maria Skłodowska-Curie  
National Research Institute  
of Oncology, Poland

Véronique Leblond  
Pitié-Salpêtrière Hospital,  
France

Roger Owen  
Leeds Teaching Hospitals  
NHS Trust, UK

Alessandra Tedeschi  
Niguarda Cancer Center,  
Italy
